

Big stories, fewer barriers.

An imprint of Sweet Cherry Publishing

Because everybody should have magical stories within reach...

About Every Cherry

Every Cherry is a solution to the pressing need for genuine representation and accessibility in publishing. This imprint is a safe space for children and adults with SEND (Special Educational Needs and Disabilities) requirements to fall in love with reading in the most accessible way possible.

By leveraging a range of SEND-oriented devices, we endeavour to remove barriers for as many readers as we can, including those who require simple text, readers who rely on symbols and readers who need a sensory approach to experience the world around them.

With Every Cherry, you can expect:

Symbolised stories
Simplified storytelling
Sign language versions
Clear illustrations
Sensory elements
... and many more!
